

Taylor Talks Sustainable Waste Management at Earth Day Event

(TAYLOR, BC) – Celebrate Earth Day by joining the District of Taylor and NEAT (Northern Environment Action Team) for our very first Earth Day event on Wednesday, April 18th from 5:00 – 7:00pm at the Yard and Garden Trimmings Transfer Site, located at the back of the Lone Wolf Golf Course by the golf maintenance shop. Games, Earth friendly giveaways, and activities will be taking place, making it a perfect family outing to teach people about the importance of sustainability while grabbing a slice of pizza and celebrating the planet we call home.

"Organic waste can be an issue for most communities. Dealing with leaves, lawn clippings, tree branches and other organic materials can be difficult for residents. The District established a yard and garden trimmings facility to assist residents to prevent organic waste from piling up in yards and alleys. Please come out to our first Earth Day event and learn how to use this facility properly." Mayor Rob Fraser

The District of Taylor's yard and garden trimmings transfer site, located by the golf maintenance shop off of Cherry Ave East, is for residents to use, however, from time to time prohibited items such as couches, televisions and more have been left at the pile for staff to sort. In order to keep the service viable and turn it into a future transfer station, educating our residents as to what is acceptable at this facility is our number one priority.

Mayor, Council and staff are committed to building sustainability in the community and would like to see the yard and garden trimmings transfer site used properly so that we can keep this community asset operational.

Date: Wednesday April 18th, 2018

Time: 5-7pm

Location: Yard and Garden Trimmings Transfer Site – Located at the Back of the Lone Wolf Golf Course just off of Cherry Ave East.
