

The Younger Extraction Plant located in Taylor, B.C. will be commencing a plant outage on Sept 2<sup>nd</sup>, 2020 through Sept 28<sup>th</sup>, 2020. During this time there will higher than normal flaring activities, specifically from Sept 2<sup>nd</sup> to Sept 3<sup>rd</sup> and Sept 27 to Sept 28. This is a normal part of the plant shut down and start-up process.

This outage is scheduled in conjunction with the North River- McMahon Plant outage and is necessary to make repairs to maintain safe operation of the plant, which cannot be accomplished during normal operation.

If you have any concerns, please contact the Younger Extraction Plant office at 250-789-2220 and your questions will be directed appropriately.

Sincerely,

John Wilson  
Operations Supervisor  
Younger Extraction Plant
